Product anatomy

It took 5 years for ROCKROOSTER to develop patented anti-fatigue insole technology to relieve foot fatigue caused by long-term walking.

It is a high-functional textile with a special fiber moisture management system, which can quickly evaporate the heat, making you feel cool and comfortable when you wear them.

PU

Injection molding process, good adhesion,
not easy to fall off

YKK is the originator of the zipper industry and represents the industry standard. Because of the precise technology, raw materials and management methods, the price and quality of YKK is about 10 times that of other zippers.

It is a memory foam cushioning material developed by Rogers Corporation, which can remember the initial shape and provide continuous fit and long-lasting comfort for the feet.
