US Size:7-14[1/2 7.5-11.5]

Product anatomy

COMFORT MEMO
ANTI-FATIGUE TECHNOLOGY

It took 5 years for ROCKROOSTER to develop patented anti-fatigue insole technology to relieve foot fatigue caused by long-term walking.

It is a high-functional textile with a special fiber moisture management system, which can quickly evaporate the heat, making you feel cool and comfortable when you wear them.

PU

Injection molding process, good adhesion, not easy to fall off

The membranes are covered in billions of microscopic pores, giving the laminate its unique waterproof-breathable properties. Water droplets are too large to pass through the membrane, but let small water vapor molecules escape.

It is a memory foam cushioning material developed by Rogers Corporation, which can remember the initial shape and provide continuous fit and long-lasting comfort for the feet.

CUSHIONING POLYURETHANE
FOAM

RUBBER

Rubber non-slip outsole for enhanced grip

Product Description
