Product anatomy

COMFORT MEMO[®] ANTI-FATIGUE TECHNOLOGY

It took 5 years for ROCKROOSTER to develop patented anti-fatigue insole technology to relieve foot fatigue caused by long-term walking.

It is a high-functional textile with a special fiber moisture management system, which can quickly evaporate the heat, making you feel cool and comfortable when you wear them.

The membranes are covered in billions of microscopic pores, giving the laminate its unique waterproof-breathable properties. Water droplets are too large to pass through the membrane, but let small water vapor molecules escape.

It is a memory foam cushioning material developed by Rogers Corporation, which can remember the initial shape and provide continuous fit and long-lasting comfort for the feet.

CUSHIONING POLYURETHANE FOAM

Founded in 1898, it is the world's largest tire production company. This logo means one of the best rubber in the world.

Product Description

Size 42 for this shoe

=

Size 42 standard leather shoes

=

Sneakers size 41
